

LETTER OF EXPLANATION (LOE) Sample for Canada Study Visa Supply Chain Management – Global

To,
The High Commission of Canada,
<Country>

Subject: Request to grant approval for Canada Study Visa

Dear High Commissioner,

I, <Name>, write this in response to the refusal letter that I received against my previous visa application <UCI No.><Application no.>. Having worked in the <Company> for over <Time>, I have acquired a fair amount of knowledge and skills in the same. However, I need to delve deeper into this very field and have global learning exposure which will, therefore, make me competent enough to deal with international clients in a better way while climbing the ladder of accomplishment in the near future. With this objective in mind, I looked for various study programs offered by some of the best universities abroad. After in-depth research and consideration, I finalized Canada for my higher education. In Canada, I selected Conestoga College wherein I wish to pursue the program of Supply Chain Management – Global. I applied for the same course of study and even got a Letter of Acceptance from the college. However, I got a rejection letter from the visa committee as they did not find my application in a good light and refused my candidacy on the following ground:

Refusal Ground – “The purpose of your visit to Canada is not consistent with a temporary stay given the details you have provided in your application.”

Now, I have taken this opportunity to justify the aforementioned refusal ground due to which my former visa application got rejected.

TIES TO HOME COUNTRY

Familial ties

- My family is my greatest tie to my home country, India, as I have a very strong connection with them.
- In my family, I have my father who owns a business for the last <Time>, my mother who is a homemaker, and my brother who works alongside my father to help him in his business. My father is a well-established businessman and is amongst the <Position> in our hometown.
- Though my father, mother, and brother, all have contributed to my life in some way or the other; however, it is my parents who have been there for me through thick and thin forever.
- My parents have always pushed me to my limits and motivated me to follow my dreams. They showed immense faith in me when I doubted myself. Even now, they have my back and support me completely in my decision of studying abroad. They believe that I will gain the requisite knowledge and skills that I long for from my abroad studies.
- As my parents are getting old, they will soon be unable to easily carry out the daily activities on their own. In such old age, instead of leaving them all alone, I want to be by their side and support them in all aspects, be it emotionally, financially, or physically.
- Though there is my brother who can also take care of my parents, he too might embark on a different journey in the future. Nobody knows what the future holds but I know for sure that in the future, I see myself living with my parents and looking after them in their old age.

Professional ties

- I also have plans of making my career in my homeland, India, as India has managed to shine on the world map in the past few years due to its constant evolution in technology and other fields.
- India has recently been named the fifth biggest economy in the world which proves that India is now capable of being home to world-famous businesses. Various multinational companies have their base in India and provide excellent work opportunities to the candidates. The services provided in such organizations are also outstanding and if the candidate possesses the requisite skills, they are paid heavily as well. If such great working prospects are available in India, then why would I even think of staying away from my beloved parents and living in a different country altogether?

- My long-term plans consist of me supporting my family business and taking it to the pinnacle of success. To bring my goal to fruition, I have to be in my home country anyhow. Thus, it becomes necessary for me to get back to India after I complete my studies in Canada.

FINANCE FOR STUDIES

My father is the sole endorser of my education and accommodation in Canada as he has sufficient funds in his account to back my finances while I study abroad. My family owns an immovable asset worth < Amount >. My father and mother have movable assets worth < Amount > and < Amount > respectively. The total net worth of my father < Amount > and of my mother is < Amount >. Our family business has an approximate turnover of < Amount > and we pay an ITR amounting to <Amount>. All the relevant documents regarding our family's financial status are attached to this application for your kind reference. I must add that I have already paid the tuition fee of <Amount> along with the GIC amount of < Amount >.

ACADEMIC & PROFESSIONAL CREDENTIALS

My scholastic arc so far has been a rewarding affair as it inculcated in me valuable learnings. After completing my Matriculation and Intermediate from CBSE Board in <Year> and <Year> respectively, I decided to pursue a Supply Chain Management – Global from Conestoga College which I passed with flying colors in <Year>.

In the pursuit of attaining some professional experience in a real-world scenario, I entered the work setting of <Company> as <Profile> where I worked for <Time>. Then, I stepped into <Company> wherein it has been <Time> now that I have been working as a <Profile>.

WHY ONTARIO COLLEGE GRADUATE CERTIFICATE IN SUPPLY CHAIN MANAGEMENT – GLOBAL?

I have chosen the study program of Supply Chain Management – Global at Conestoga College because this very program aligns perfectly with my so far educational and professional attainment. Working in the field of <Position> has showered me with notable skills but I still lack the necessary knowledge that will make me well-adept in my domain of interest and enable me to emerge as a successful business professional in the years to come. Also, I have a yearslong dream of taking my father's business to the zenith of triumph and expanding it further to different countries. To make it possible, I need an international level of education in both theory and practice which is why I decided to pursue my desired program at Conestoga College in Canada.

The various courses that I will be acquainted with while studying my chosen program at <College> are Supply Chain Management – Global. All these courses collectively will pepper me with meaningful insights and help me widen my pool of wisdom in the domain of Supply Chain Management – Global. Once my study program will get over, I will become competent to make use of risk mitigation tools and tactics to impart <Profession> decisions, use communication and leadership skills to create and manage strategic relationships with various stakeholders, and do a lot more.

WHY CONESTOGA COLLEGE?

Conestoga College is regarded as one of the best colleges in Canada and is amongst the top choices of international students for higher studies in Canada. Conestoga College has the reputation of having an excellent education system that involves avant-garde learning infrastructure, erudite faculty, and abundant practical exposure. The facilities provided on the college campus is outstanding as the college authorities keep in mind to make every facility accessible to the students so that they do not face any kind of obstruction while studying their respective course in the college circles. Also, the student service team of Conestoga College is very helpful and makes certain that every query of every student is heard properly and action against the same is taken promptly.

WHY CANADA?

Canada is my ultimate study destination for my abroad studies because Canada is amongst the top places where students from all around the world wish to study. Canada is known for having par excellent institutions that offer up-to-date knowledge to all domestic as well as international students. The institutions of Canada make use of modern technology and ensure that every student acquires the latest knowledge. Moreover, I cannot get the exact quality of education in India that I will get in Canada as the Indian institutes are not known for offering more practical exposure. In fact, they focus mostly on providing as much theoretical knowledge as possible which is not what I need. I am craving meaningful field experiences that will solidify my skillset and make me a highly-skilled professional in the <Profession>. Besides, Canada is a melting pot of culture which enhances the multi-cultural beauty of the nation. Being surrounded by people belonging to various ethnicities will surely help me not stress over facing any sort of cultural differences and will encourage me to expand my social circle a little more by exchanging opinions and views on any topic.

FUTURE PLANS

Once I wind up my education at Conestoga College, I intend to get back to my home country, India, and find myself a high-salaried job in a multinational company. After working there for a couple of years and gathering notable skills under my belt, I will join my father's business in the long haul. I would like to expand my father's business to every part of India and later to all around the world. With the first-class knowledge and skills that I will attain from my Canadian education, I am sure that my dream of making my father's company one of the top business enterprises in India will come true in the forthcoming years. I also am extremely excited to contribute my bit to the betterment of the economy of India and help the people working in my father's company lead a much better life.

LANGUAGE PROFICIENCY

I have admirable knowledge of the English language and as my previous mode of instruction was in English, I am certain that I will be able to easily interact with others and understand the concepts taught by the professors in Canada. To give testimony of the same, I have enclosed here with my IELTS report in which I secured an overall band score of <Points>.

CONCLUSION

I, hereby, declare that I have a complete understanding of the immigration laws of Canada and am strong-willed to stick to them up until I make a return to India. On a final note, I request you consider my application positively this time and provide me with my requisite Study Visa so that I can attain the very skills that will help me take my family business to greater heights.
