

Academic Letter of Recommendation (LOR) Sample

I am pleased to know that {Name}, my former student, has chosen your university to pursue her ___ course ___. My association with her has given me ample scope to assess her academic and personal capabilities. I have known her for the past year in my capacity as her **Biology subject teacher**.

I found {Name} to be a diligent young woman who always works hard to deeply understand a subject. She has aesthetic learning skills, perseverance and tenacity to complete the tasks assigned to her. She is creative in her approach to solving problems and makes wise use of her past observations. She carried out her practical work independently and also extended good cooperation to the team.

Her ability to understand abstract concepts and make crucial inferences on the basis of theories is remarkable. This could be attributed to the fact that she keenly studies the recent development in science in the field of biology. She also participated in many science fair, Science Olympiad, Bulletin board projects and seminars for her growth. Moreover, time and again, she has come up with innovative and exciting solutions to the problems I pose during brainstorming sessions in the class. Owing to these qualities, she is one of my best students.

On the personal front, she is motivated toward her work and dreams and never lets obstacles and challenges affect her zeal. Her most inspiring quality is that she makes it a point to finish what she starts. Her ability to lead has been the hallmark of her character. I personally feel that her overall grades are not a true reflection of her scholastic aptitude, and she is capable of much more, given the potential she has within.

Having known her as a student who makes her teachers proud, I am confident that she can accomplish tasks assigned to her with utmost devotion and bring laurels to the institute. Therefore, I strongly recommend her for admission to the _____ Course.

{Name}

Biology subject teacher
