

## Professional Letter of Recommendation (LOR) for Masters- Sample

It bestows me enormous contentment to recommend {Name} for a Master's at your respected institute. Around the last few years of my career as a CEO & Founder of Klimb.io, curating exceptional recruiting experiences, I have co-operated with a thousand interns, arriving from different environments and retaining a broad spectrum of capabilities. I would position {Name} among the prime two percentile of all the beginners I have instructed.

{Name} is a genuine and hard-working student with remarkable self-trust. I've supervised and introduced him to software features while also fixing live issues together in the software. He has joined the company being a valuable Associate Product Manager Intern to now being a promoted full-time Associate Product Manager with his hard work. His key responsibilities include interacting with clients for requirements, analyzing, planning, developing of the same, assigning and overseeing daily tasks of technical personnel, holding regular team meetings, defining clear deliverables, roles, and responsibilities for staff etc.

{Name} is quite proficient in co-coordination, management, and productivity and has always stood out from the rest. He has molded himself to work under pressure and submit work timely under all circumstances. He solely worked under my guidance on wireframes and PRDs to implement the features. With his performance and his way of formulating solutions he has left all of us speechless. On a personal level, Jeevan is an all-rounded individual with a passion for learning new trends as a Product Manager. He has moreover indicated his adeptness in organizational skills and several internships. He is incredibly approachable and lenient in discussing with me.

I concur with his decision to seek master's studies and strongly endorse him for acknowledging your university. Therefore, my proposal for his master's program is an extensively needed obligation that I owe him pridefully. Please do not flinch from seeking me if you amass any doubt about his candidacy.

Thanks

Yours sincerely,

{Name of the Professor}
